COMPLETE SOLUTION OF BIRD CONTROL AND
PEST CONTROL !!!

VED - INVISIBLE GRILLS

MATERIAL FOR INVISIBLE GRILLE

- **Aluminium Track**
- **Nylon Coated Wire rope**
- **Nylon Rollers**
- **SS304 Washer& Fixing Screws**
- **M60/M80 SS304 Anchor bolt**
- **SS316 4 way Stiffeners**

Wire Rope:

- Uses 316 marine grade stainless steel for the cables which are completely anti rust
- Melted nylon coating gives protection from external weather conditions and safe for tender hands
- Manufactured with 7x7 Nano Technology marine grade and 1.7mm ss 316 cable with 0.3mm nylon coating.
- Grill Tracks : Powder Coated Aluminum
Profile Colour : Normal Profile Colour is WHITE
Can be customized according to Client's choice
- Stiffener
- Load Capacity 250 Kgs / Plus
- Space Require 1.5 inch space to fix
- Wire Spacing 2 inch/3 inch / 4 inch
- Installation : No Hot Work, No Welding
- Maintenance : Lifelong No corrosion, No rusting

INVISIBLE GRILL

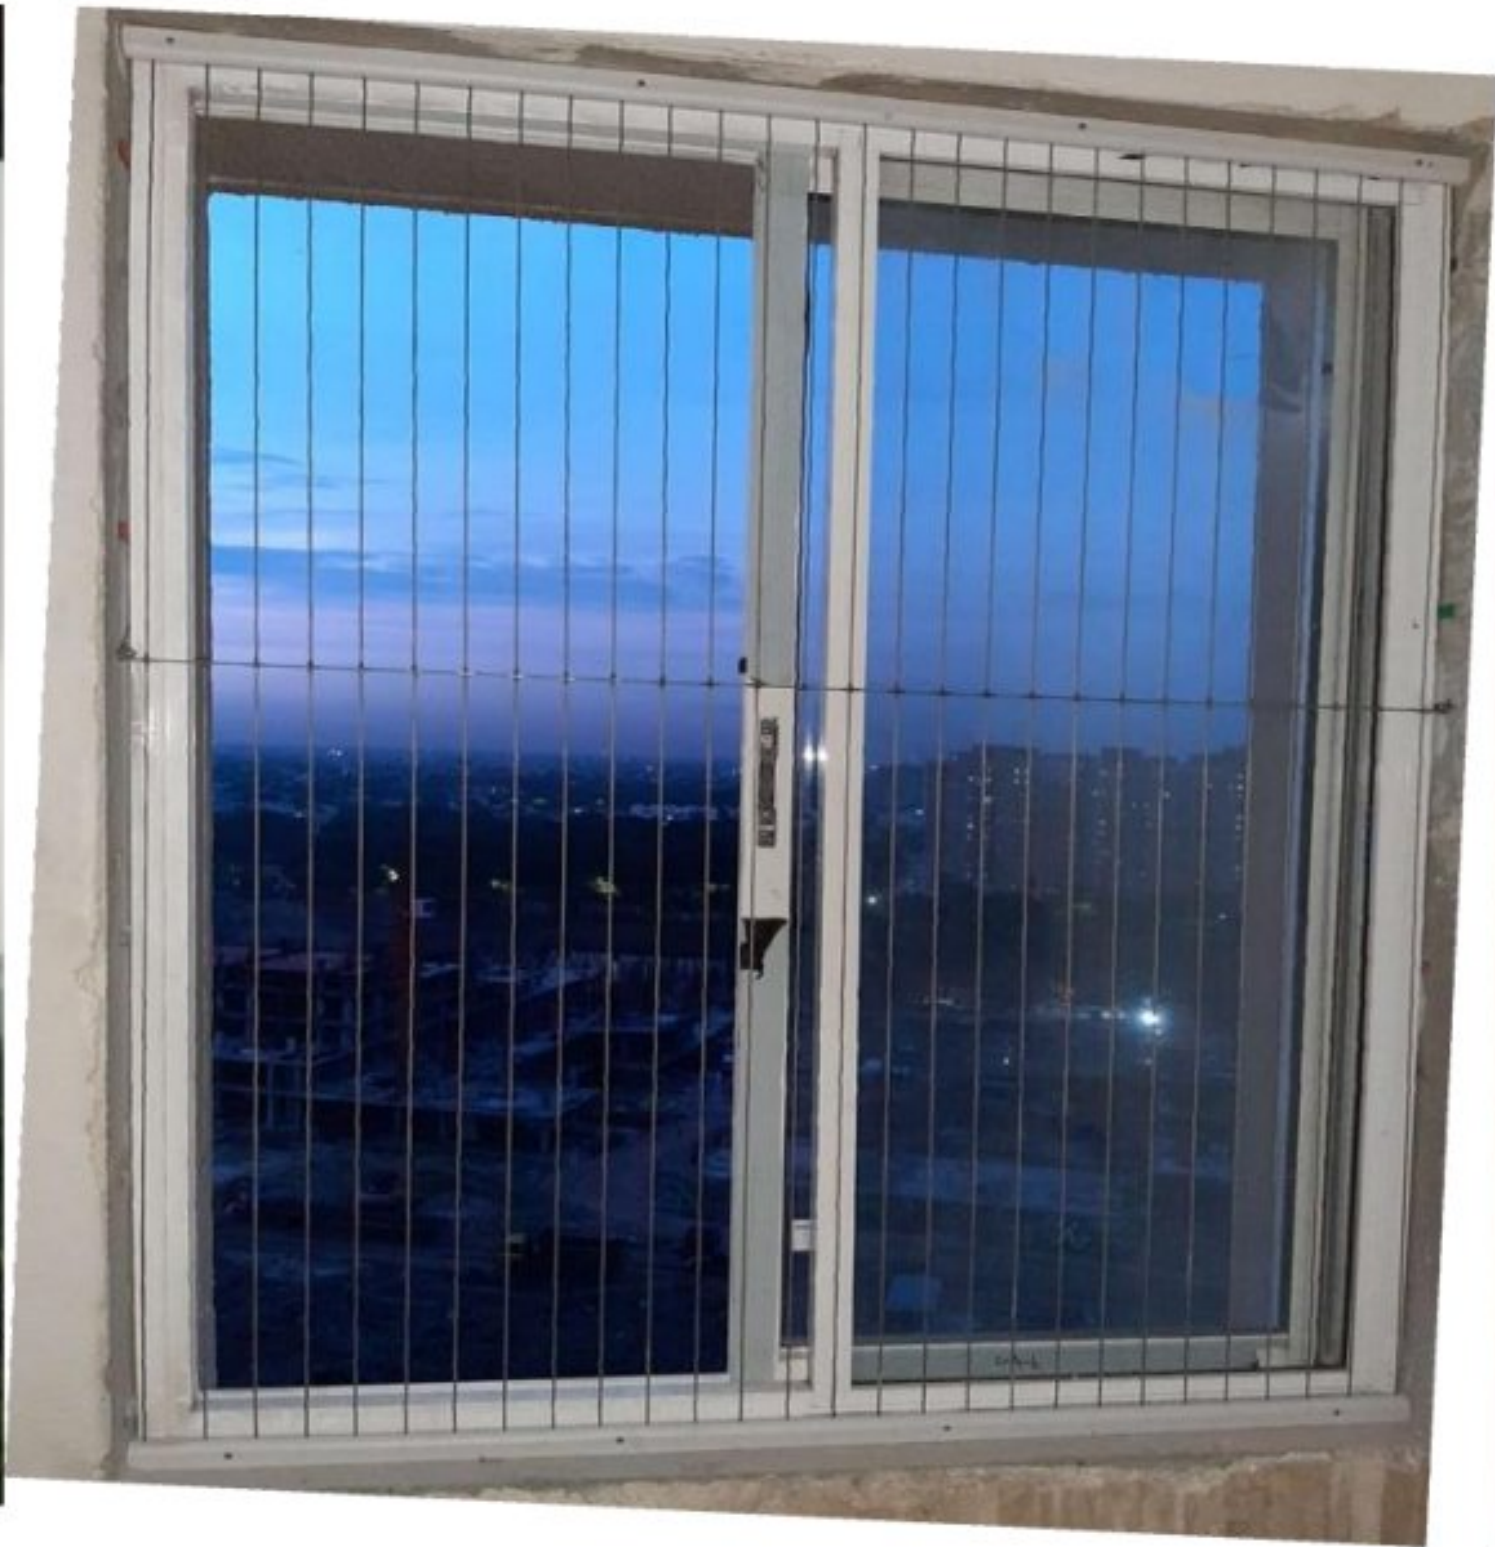

Stainless steel security for home, protection for family.

This is a system in which high tensile heavy duty marine grade stainless steel cables 2 mm, 3 mm or 4 mm thick, 316 S.S marine grade with transparent nylon casing are fixed vertically or horizontally at a distance of 2 inches, 3 inches or 4 inches as required in a structural framework, forming a very safe shield like structure, Provides excellent safety to children and adults alike, against any accidents.

Load bearing and compression load capacity of more than 400 kgs, non rusting, paint free, low maintenance and clear views with little obstructions. First time in India, Stainless steel cable invisible grilles, a modern alternative to M.S Grills. It is known as invisible grills, widely used in Singapore for a decade, introduced now in India.

FEATURES OF INVISIBLE GRILL:

- It is one such solution which will provide safety, security and aesthetics.
- It can either be fixed to the building structure or it can also be fixed to customized aluminum frames in both vertical and horizontal form.
- The cable is made up of 316 stainless steel structure that comes with premier nylon melt coated material With 7/7 Nano technology.
- Invisible Grilles are capable of supporting tensile impact up to 400 kg, keeping your children and pets out of harm without compromising on your view.
- The spacing between cables can be chosen between 2 and 4 inches.

BENEFITS OF INVISIBLE GRILL :

- Anti Rust: Rust is avoided as the cables are nylon melt coated.
- Unblocked view: Unlike normal MS grills the invisible grilles provide unobstructed view.
- Anti Bird : The narrow spacing helps avoids birds from entering the balcony.
- Safety: The slender spacing between grilles and its tensility keeps the family with kids
By integrating safety alarm to the cable we can avoid the fear of theft.
- NO MAINTANCES: These Invisible grill require no regular cleaning or maintenance and they are rust and corrosion proof.

ORDER PROCESSING FLOW

- ❖ **Site Visit & Survey**
- ❖ **Product recommendation techniques**
- ❖ **Prepare the Materials**
- ❖ **Installation**
- ❖ **Warranty**
